

Florida's #1 One-Stop-Shop for all of your marine industrial needs!
Industrial MRO Supplies, Mechanical Parts, Marine Structural Fabrication,
Electrical Parts, Operator Cabins, Electric Houses, Machinery Houses &
More!

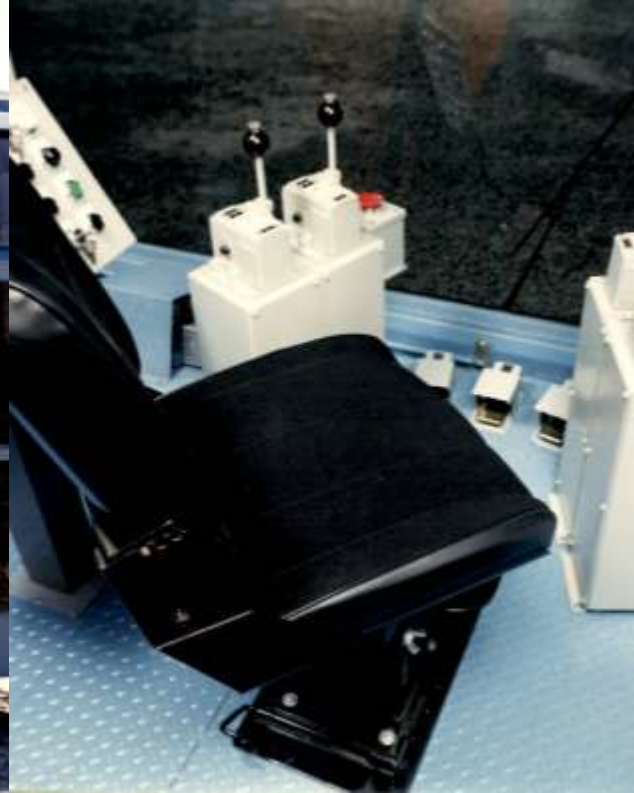

Mining Products

We specialize in sales and distribution of equipment and tools for mining, construction and maritime docks. We offer a detailed and high-quality service to identify specialized parts, along with all the International Logistics to quickly satisfy our customers. Our main objective is to provide highly qualified personnel from the industry to work with you step-by-step to help your customers maximize their production and provide solutions.

For the past 40 years, we have been in the business of fabricating and installing operator cabins for all kinds of cranes and heavy equipment with manufacturing plants in Asia, Mexico, and Colombia.

We build complete emergency refuge shelters with industrial-level safety systems built for the critical purpose of providing a safe to breathe, isolated atmosphere when the breathing air in the working section has become compromised. These products are ideal for incidents such as a fire outbreak, ventilation failure, sudden release of toxic gas or a gas related explosion. Our chambers are easily tailored to meet local, federal and industry regulations, including HVAC system.

Dock Products

At Goodtrade we offer a wide variety of products for maintenance & repair of heavy machinery. We also offer inflatable fenders, buoys, rubber fenders, plastic screens, inflatable fenders, galvanized grating, signaling buoys, and other dockside equipment with a focus on the maritime industry. The products we carry are the world's leading brands in their respective industries.

Goodtrade is a leader in manufacturing industrial crane houses. We design and build houses to the customer's exact specifications. Our houses will perform in the toughest of environments day in and day out, fully equipped to satisfy your industrial needs with HVAC, High Voltage Electricity, and many more capabilities. Let us create a solution to meet your exact requirements and specifications.
